

# HIGHER EDUCATION MEANS A HIGHER RISK OF ATTACK.

## TO WHAT DEGREE IS YOUR INFORMATION PROTECTED?

In addition to spreading valuable knowledge, higher education institutions also store quite a bit of knowledge through various academic and scientific research initiatives. This doesn't even include the numerous amount of personal information stored for students, staff, faculty, family members and research participants. Higher education institutions of all sizes are susceptible to having their valuable information compromised by hackers; that is why we're here. Pondurance delivers flexible, scalable protection with our dedicated team and 24/7 Security Operations Center safeguarding your data around-the-clock.

Higher education security officials often turn to us for enterprise security testing and compliance audits to address vulnerabilities and ensure compliance, avoiding data breaches and loss of valuable information. We offer a proactive cyber security approach using our laser-focused 24/7 Threat Hunting and Response analysts to seek out and destroy bad agents, before they can strike.
